#### Explore Your Creative Options

Use the sophisticated real-time engine in MotionBuilder to effectively previsualize and plan your shots, experiment with camera angles, and explore creative options.

#### Create Stunning Detail

Extend the modeling and texturing toolsets in 3ds Max and Maya with the intuitive, artist-friendly sculpting and painting capabilities of Mudbox, and add powerful procedural modeling with the Softimage Interactive Creation Environment (ICE).

#### Bring Your Characters to Life

Take advantage of extensive tools for character rigging and animation in Maya and 3ds Max. Clean-up, blend, layer, and retarget motion-capture and other animation data in MotionBuilder. And easily create lip-synced facial animation in the Autodesk® Face Robot® toolset.

#### Dare to be Dynamic

Harness the power of the innovative Softimage ICE toolset and the simulation capabilities within Maya and 3ds Max to create highly realistic dynamic effects with particles, rigid-bodies, soft-bodies, hair, fur, cloth, fluids, liquids, and crowds.

#### Prepare for Pixel Perfection

Select from a range of rendering options in 3ds Max, Maya, and Softimage that take advantage of today's GPU-accelerated workstations so you can work in a high-fidelity interactive environment, and create realistic images with physically accurate lighting. And combine rendered passes with live-action footage using the included high-quality compositing solutions.
